

Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner initiated the interview to discuss claims 43 and 44. In the previous Office Action (Advisory Action dated 11/21/03) the examiner indicated that applicant's arguments regarding claims 43 and 44 were persuasive and that the rejection would be withdrawn. The examiner did not indicate that claims 43 and 44 were allowable at that time. Applicant submitted a second After Final Amendment (dated 3/5/04) canceling finally rejected claims 29-33, leaving claims 43-44 and previously indicated allowable claims 34-42 and 45-50 pending. The examiner called applicant to inform applicant that claims 43 and 44 were not allowable and that the After Final Amendment would be entered and that the finality of the last rejection would be withdrawn. The examiner indicated to applicant that two options were available: claims 43 and 44 could be cancelled by examiner's amendment and the case allowed, or a new non-final rejection could be made on claims 43 and 44. Applicant opted to cancel claims 43 and 44, thereby placing the application in condition for allowance.
